THE RECOGNITION OF SCHOOLS

The Superintendent of Public Instruction shall have the power and duty: "to determine for all types of schools conducted under this Act efficient and adequate standards for the physical plant, heating, lighting, ventilation, sanitation, safety, equipment and supplies, instruction and teaching, curriculum, library, operation, maintenance, administration and supervision, and to grant certificates of recognition to schools meeting such standards." (Section 2-27, School Code, approved July 18, 1947.)

"Any school district which fails for any given school year to maintain school as required by law or to maintain a recognized school for any school year beginning on or after July first, 1947, shall not be eligible to file for such school year any claim upon the common school fund. A 'recognized school' means any public school which meets the standards as established for recognition by the Superintendent of Public Instruction." (Section 18-9, School Code, approved July 21, 1947.)

Recognition is extended for a one year period to all public schools which apply for recognition by filing Annual Reports and which conform to those standards, policies and practices set up for recognized schools. Certificates of recognition are issued annually.

Recognition is now extended by districts and not by schools or attendance units within a district. In other words, recognition is not extended to one school in a district (elementary or secondary) unless all the schools in a district (elementary and secondary) meet the standards for recognition.

Probationary recognition is extended to those schools which, in the opinion of the Superintendent of Public Instruction, are failing in some respects to maintain those standards and practices which should characterize the good school. It is a warning that improvements must be made to insure continued recognition and the benefits enjoyed through recognition.

Full or probationary recognition confers upon a school, which complies with the attendance provisions of Section 18-11 of the School Code, (as amended by L. 1951, H.B. 1162, approved August 4, 1951.) the right to file claims upon the common school fund, to collect tuition from public funds for pupils residing in other districts, including non-high school districts, and in the instance of four-year high schools, the accrediting privilege with most of the higher institutions of learning in Illinois and other states.

Private schools are visited upon request and are recognized when they conform to the standards and requirements established by the Superintendent of Public Instruction for the recognition of public schools.

In the listings which follow:

The recognition status indicated for all schools is for the 1953-54 school year.

"R" indicates full recognition and "PR" indicates probationary recognition. (NR indicates that the school has no recognition.)

Arabic numerals 2, 3 or 4 indicate the number of years offered in the high school program.

In unit districts the recognition of all the schools of the district is shown by "R" or "PR".

Since, in the instance of unit districts operating as such for the first time during the 1954-55 school year, it is almost impossible because of reorganization to give an accurate picture of the 1953-54 recognition status of the several schools which are now a part of new unit district, a composite recognition status of "R" or "PR" has been extended to indicate the recognition status of the several parts of the district for 1953-54 and not the unit district which did not then exist.

ELEMENTARY AND HIGH SCHOOLS

This section is made up from reports sent in by the county superintendents who receive their material from the administrators in the schools concerned. Current school consolidations have, in some cases, affected the accuracy of this report. C.U.—Community Unit; C.C.—Community Consolidated; Cons.—Consolidated.

CERTIFICATION OF TEACHERS

LIMITED STATE CERTIFICATES

Limited State Certificates are issued by the State Teacher Certification Board and a county superintendent of schools. They are of ten kinds as follows:

A limited elementary school certificate valid for four years for teaching in the lower nine grades of the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with a bachelor's degree and with not fewer than 120 semester hours and with a minimum of 16 semester hours in professional education, including 5 semester hours in student teaching under competent and close supervision. The academic and professional courses offered as a basis of the limited elementary school certificate shall be elementary education courses approved by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

A limited kindergarten-primary certificate valid for four years for teaching in the kindergarten and in the first, second and third grades of the common schools. It shall be issued to graduates of a recognized institution of higher learning with a bachelor's degree and with not fewer than 120 semester hours including 60 semester hours of work in a recognized school for preparing kindergarten-primary teachers and with a minimum of 16 semester hours in professional education, including 5 semester hours of student teaching in the grades for which the certificate is valid under competent and close supervision. The academic and professional courses offered as a basis for the limited kindergarten-primary certificate shall be approved by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

A limited special certificate valid for four years for teaching and supervising the special subjects named therein in all grades of the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with a bachelor's degree and with not fewer than 120 semester hours including a minimum of 16 semester hours in professional education, 5 of which shall be in student teaching in the subject or subjects named in the certificate, under competent and close supervision. The extent of preparation shall vary according to the subject and the minimum amount of preparation in each subject or subject field shall be determined by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

A limited vocational certificate valid for four years for teaching the vocational subjects named therein in grades seven to twelve, inclusive, of the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with a bachelor's degree, with not fewer than 120 semester hours including 16 semester hours in professional education, 5 of which shall be in student teaching in the subject or subjects named in the certificate, under competent and close supervision. The vocational subject or subjects which the holder is qualified to teach shall be named in the certificate and the minimum amount of preparation in the subject or subjects named shall be determined by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

A limited high school certificate valid for four years for teaching in grades seven to twelve inclusive of the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with a bachelor's degree and with not fewer than 120 semester hours including 16 semester hours in professional education, 5 of which shall be in student teaching under competent and close supervision and with at least a major and minor from separate subject fields or with 3 minors, 2 of which must be in separate subject fields. The academic and professional courses offered as a basis for the limited high school certificate shall be approved by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

A limited elementary supervisory certificate valid for four years for teaching and supervising below the tenth grade in the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with a bachelor's degree and with not fewer than 120 semester hours including a minimum of 16 semester hours in professional education, and who have taught for four years in the kindergarten or one or more of the first eight grades of the common schools.

A limited high school supervisory certificate valid for four years for teaching and supervising in grades seven through twelve of the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with a bachelor's degree, with not fewer than 120 semester hours including 16 semester hours in professional education, and who have taught for four years in one or more of grades nine through twelve.

A limited all-grade supervisory certificate valid for four years for teaching and supervising in any and all grades of the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with a master's degree in the field of educational administration and supervision including 20 semester hours of education at the graduate level, and who have had four years of teaching experience at the high school or elementary level. If the teaching experience has been at the high school level then at least 10 semester hours of professional education must have been earned in the elementary field. If the teaching experience has been at the elementary level then at least 10 semester hours of professional education must have been earned in the secondary field. The graduate courses offered as a basis for the limited all-grade supervisory certificate shall be approved by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

A limited junior college certificate valid for four years for teaching in the subject or subject fields named in the certificate in grades nine to fourteen inclusive of the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with a master's degree, including 20 semester hours in professional education and a major in each subject field named in the certificate. The academic and professional courses offered as a basis for the limited junior college certificate shall be approved by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

A limited state certificate for teachers of exceptional children valid for four years for teaching in the special fields named in the certificate in all grades of the common schools. It shall be issued to persons who have graduated from a recognized institution of higher learning with 24 semester hours in the field of specialization, including 6 semester hours of student teaching under competent and close supervision. The academic and professional courses offered as a basis of the limited state certificate for teachers of exceptional children shall be such courses as are approved by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

PROVISIONAL CERTIFICATES

The State Teacher Certification Board may also issue four types of provisional certificates as follows: provisional elementary, provisional kindergarten-primary, provisional special, and provisional high school. These certificates may be issued under two plans, as follows:

Plan I. A provisional certificate issued under this plan is valid for two years for teaching in the same grades and subjects as provided for a limited certificate of similar name, and may be issued to a person 19 or more years of age who presents certified evidence of having earned 60 semester hours of credit toward a bachelor's degree, including 10 semester hours in the field of professional education in a recognized institution of higher learning or who presents certified evidence of having earned a bachelor's degree from a recognized institution of higher learning; and passes an examination in the subject fields of social science, natural science, language arts, and professional education as prescribed by the State Teacher Certification Board; however,

an applicant for such provisional certificate shall not be required to be so examined if he presents certified evidence of having earned a Bachelor's degree from a recognized institution of higher learning and credits within 8 semester hours of the requirements for the limited certificate required for the teaching position for which the applicant is to be employed. No person who has passed the examination for a certificate under this plan shall be eligible to write the examination for the same type of certificate again unless 8 semester hours of credit have been earned in a recognized institution of higher learning since the said applicant last passed the examination.

A certificate earned under this plan may be renewed at the end of each two-year period upon evidence filed with the State Teacher Certification Board that the holder has earned 8 semester hours of credit within the two-year period; provided the requirements for the limited certificate of the same type issued on the basis of credit shall be met by the end of the sixth two-year period. The credits so earned must be approved by the State Teacher Certification Board and must meet the general pattern for a similar type of certificate issued on the basis of credit. No more than 4 semester hours shall be chosen from elective subjects.

Prior to July 1, 1955, the State Teacher Certification Board may also issue a provisional vocational certificate. The requirements for a provisional vocational certificate shall be determined by the Superintendent of Public Instruction in consultation with the State Teacher Certification Board.

A temporary provisional certificate may be issued by the State Teacher Certification Board upon the recommendation of the county superintendent of schools to persons who have the following qualifications:

a. A teacher possessing a limited certificate valid for teaching in any grades of the common schools as specified on the face of the certificate may be issued a temporary provisional certificate valid for teaching in any other grades of the common schools; and

b. A person who has completed thirty semester hours in a recognized institution of learning and who passes an examination as prescribed by the State Teacher Certification Board may be issued a temporary provisional certificate valid for teaching in any and all grades of the common schools upon filing with the State Teacher Certification Board a transcript of credits earned.

Any such certificate issued under the provisions of this section shall expire on June 30 following the date of issue. Renewals may be granted on a yearly basis, but shall not be granted to any person, other than one possessing a valid limited certificate who does not file with the State Teacher Certification Board a transcript showing at least five semester hours of credit earned during the previous year in a recognized institution of learning. No such certificate shall be issued except upon certification by the employing board, subject to the approval of the county superintendent of schools, that no teacher holding a valid certificate is available, that the transfer of the pupils to another school is not feasible, and that actual circumstances and need require such issuance.

A substitute teacher's certificate may be issued until July 1, 1955 for teaching in all grades of the common schools. Such certificate may be issued upon request of a school board and subject to the approval of the county superintendent of schools of the county in which the teacher is to teach. Such request must be accompanied by a statement of the board, approved by the county superintendent of schools of the county in which the teaching is to be done, that no properly certified teacher is available. A substitute teacher's certificate shall be valid for teaching only in the public schools of the county that are under the jurisdiction of the county superintendent of schools approving the issuance of the certificate. The certificate shall expire on June 30th following the date of issue and shall be issued to persons who either (a) hold a certificate valid for teaching in the common schools as shown on the face of the certificate, or (b) have been graduated from a recognized institution of higher learning with a bachelor's degree, or (c) have had three years of teaching experience.

A teacher holding a substitute teacher's certificate shall teach only in the place of a regularly certified teacher who is under contract with the employing board, for a period not to exceed ninety school days in any one position.

Section 21-1 of the School Code provides that no certificate issued after July 1, 1953 shall be renewed for the first time unless the person holding the certificate passes an examination to the satisfaction of the certifying authority upon the provisions and principles of the Constitution of the United States and of the State of Illinois.

LIFE CERTIFICATES

Seven types of life certificates may be issued by the State Superintendent of Public Instruction, as follows:

A life elementary school certificate valid for teaching in the lower nine grades of the common schools for which the requirements shall be: a master's degree conferred by a college or university recognized for offering graduate courses leading to such degree; 22 semester hours in professional education; four years experience in teaching below grade ten of the common school, two of which have been in Illinois.

A life kindergarten primary certificate valid for teaching in the kindergarten and in the first, second, and third grades for which the requirements shall be: a master's degree conferred by a college or university recognized for offering graduate courses leading to such degree; 60 semester hours of college work in a kindergarten-primary curricula; 22 semester hours in professional education; four years' experience in teaching in the kindergarten or primary grades one through three, two years of which have been in Illinois.

A life special certificate valid for teaching and supervising the special subjects named in the certificate in all grades of the common school for which the requirements shall be: a master's degree conferred by a college or university recognized for offering graduate courses leading to such degree; thorough training in the special subject named in the certificate and in related subjects as may be approved by the Superintendent of Public Instruction; 22 semester hours in professional education; four years' experience in teaching the special subjects named in the certificate, two years of which have been in Illinois.

A life high school certificate valid for teaching in the subject field in which the holder has a major or minor in grades seven to twelve, inclusive, of the common schools for which the requirements shall be: a master's degree conferred by a college or university recognized for offering courses leading to such degree; 22 semester hours in professional education; four years' experience in teaching in the subject field or fields in which the holder has a major or minor in one or more of grades seven through twelve, two years of which have been in Illinois.

A life junior college certificate valid for teaching in the subject field or fields named in the certificate in grades nine through fourteen of the common schools for which the requirements shall be: a master's degree conferred by a college or university recognized for offering courses leading to such degree; 22 semester hours in professional education, with a major in each of the subject fields named in the certificate; and four years' experience in teaching in the subject field or fields named in the certificate in one or more of grades seven through fourteen, two years of which have been in Illinois.

A life general supervisory certificate valid for teaching and supervising in any and all grades of the common schools for which the requirements shall be: a master's degree in educational administration, including 24 semester hours of professional education at the graduate level, and four years' experience in supervision, two of which have been in Illinois.

A life certificate for school librarians valid for supervising and administering libraries of any and all grades of the common schools for which the requirements shall be: a library degree representing one year of graduate work beyond the baccalaureate degree of arts, science or education, or philosophy; and four years' experience as a school librarian, two of which have been in Illinois.
